EDUCATION BACKGROUND

November 2019-December 2019

Attended and completed a short IT course at Modcom Institute of Technology where I did a course in Android App Development.

January 2018-Present

Student at The Kabete National Polytechnic studying a Diploma in Information Communication Technology.

February 2013-November 2016

Student at Muindi Mbingu Boys school, in Machakos County and attained a certificate in Secondary Education.

January 2004-November 2012

Pupil at Comido Education Centre, Nairobi and attained the Kenya Certificate of Primary Education.

EXPERIENCE

Successfully built a fully functioning website. The website is a News/Magazine website called EpicPulse Magazine under Goodfellaskenya. The website link <https://goodfellaskenya.com>.

Build a Netflix clone and deploy it in google firebase cloud. The link to the project => <https://netflix-clone-5589f.web.app/>

Build multiple Projects which are deployed on my github account repositories. some of the projects i have completed include:

1. A chatbot with python
2. A Notes-App with Html Css and javascript
3. Django Ecommerce website with Python
4. Craigslist Clone with python
5. A Corona Tracking mobile App
6. A fully function Desktop Virtual Assistant like Jarvis

I have the Wordpress knowledge required to build a fully functional website, I have also done lots of projects under wordpress

I am also experienced in Python language together with its framework to build websites Django.

Also took a course with Google Digital skills Africa and got certified with fundamentals of digital marketing which came in hand with the SEO knowledge.

December 2016- November 2017

Trained as a chef at Gaucova Outside Caterers, where I was able to learn how to cook different dishes and also got a chance to explore more on the catering field.

>During holidays I will help tutor students in computer lessons, this is due to my experience and exposure to computers from my time in high school.
